SPARKLING & CHILLED FILTERED

Say goodbye to unsustainable bottled water.

AQUA BOILER OPTIONS

It's time to ditch the kettle and save time, energy, and space. Have instant boiling water for tea, coffee, and cooking on demand.

2.4 LITRE BOILER - COMES US A STANDARD OPTION WITH ALL TAPS

- Delivers enough for 7-8 cups of tea or coffee at a time
- 13 litres of boiling water per hour (up to 54 cups)
- Adjustable temperature options

4 LITRE BOILER - AN UPGRADE TO OUR STANDARD OPTION

- Delivers enough for 14-16 cups of tea or coffee at a time
- 22 litres of boiling water per hour (up to 92 cups)
- Adjustable temperature options

AQUA CHILLER OPTIONS

FILTERED CHILLED WATER

- Produces filtered chilled drinking water
- Undersink design saves counter space
- Chilled water temperature from 3-12 degrees
- UV sterilisation

AQUA FILTER SUBSCRIPTION

Subscribe to our replacement filter plan and receive 10% discount and FREE DELIVERY. Save £15.60 every 6 months!

Have peace of mind. Never miss a filter change by subscribing to our plan.

- The Aquataps dual filter package comes with two filters
- One of the filters is an anti scale filter to remove scale and protect your boiler
- The second filter is a carbon filter which removes bacteria and purifies your water
- These filters must be changed every 6 months or 2000 litres of water

AQUA INSTALLATION SERVICE

Aqua Taps have over 20 years experience in the filtered water industry so you are certainly in safe hands with Aqua. Whether or not you are installing the Aqua Tap yourself or are using our installation service, we have a team of trained technicians who can help.

Please find out if a AQUATAPS Accredited Installer covers your area.
