BENEFITS OF AQUATAPS

Instant Boiling Water: Immediate access to boiling water for cooking and drinks.

Energy Efficiency: Reduces household bills.

Space Saving: Eliminates the need for a kettle, freeing up counter space.

Enhanced Water Quality: Includes filtration system that removes impurities, improves taste, and reduces limescale.

Reduced Water Waste: Promotes using only the necessary amount of water. Never overflow a kettle again!

Reduced Plastic Waste: No more plastic bottles.

ACCESSORIES SPECIFICATION

2.4 Litres Boiler Specification

Design & Installation: Digital touch screen for easy operation. Quick and simple, typically under an hour.

Performance:

Capacity: 2.4L (7-8 cups).

Water Pressure: 1.5 bar min, 5.0 bar max.

Temperature: 55°C to 98°C, ±0.5°C accuracy.

Heat Up Time: ~8 minutes.

Materials & Efficiency:

Outer: Powder-coated mild steel.

Inner: Stainless steel.

Insulation: Advanced for energy efficiency.

Warranty: 2 years on tank.

Dimensions: 262mm (H) x 196mm (W) x 196mm (D).

Electrical: 13 amp, 1m detachable cable. 220-240V, 1.5kW power rating.

Single Filter System Specification

Functionality: Reduces the risk of limescale buildup.

What does our filter remove:

Chlorine: 99.5%

Trichloromethane: 95.78%

Lead: 98.4-99.2%

Arsenic: 97.8%-86.7%

Iron: 99.5%

Manganese: 98.7%

Filtration efficiency: 0.2 micron Water Filtration

Installation: Designed to fit neatly under the sink for easy installation.

Maintenance: Replacement cycle every 6 months.

Dimensions: Height: 295mm, Width: 80mm

4 Litres Boiler Specification

Design & Installation: Digital touch screen for easy operation. Quick and simple, typically under an hour.

Performance:

Capacity: 4L (14-16 cups).

Water Pressure: 1.5 bar min, 5.0 bar max.

Temperature: 55°C to 98°C, ±0.5°C accuracy.

Heat Up Time: ~10 minutes.

Materials & Efficiency:

Outer: Powder-coated mild steel.

Inner: Stainless steel.

Insulation: Advanced for energy efficiency.

Warranty: 2 years on tank.

Dimensions: 272mm (H) x 200mm (W) x 289mm (D).

Electrical: 13 amp, 1m detachable cable. 220-240V, 1.5kW power rating.

Water Chiller Specification

Design & Installation: Designed for small under counter spaces. Ample ventilation is crucial for optimal chilling performance and to avoid premature failure.

Performance:

- Ice Bank chilling system maintains temperatures below 10°C, even with incoming water at 20°C and room temperature at 25°C.
- Ensure Ice Bank is filled with water before operation to prevent damage.

Features:

- Embedded Carbonator in the Ice Bank for lasting, excellent carbonation.
- Requires a Gas Regulator for CO² Cylinder connection.
- WRAS approved.

Dimensions: 407mm (H) x 260mm (W) x 300mm (D).

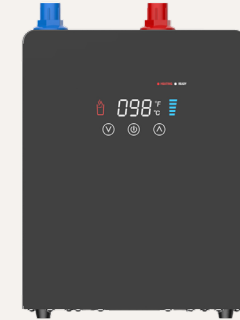

Electrical: 13 amp, 1m detachable cable. 220-240V, 1.5kW power rating.

FILTER CHANGE WHY IS THIS IMPORTANT?

Warranty Validity: Changing your Aquatap filters every six months is a condition of your warranty. Ensuring compliance with this requirement is essential to keep your warranty active and your investment protected.

Water Purity: Regular filter replacement guarantees that your Aquatap consistently delivers the cleanest and purest water possible, free from impurities and contaminants. This is key to enjoying the high-quality water you deserve.

Boiler Protection: Changing filters also safeguards your water boiler from harmful lime scale build-up. By preventing this, you're extending the life of your water boiler and ensuring it operates efficiently for years to come.

Subscription works perfectly and items...

Subscription works perfectly and items arrived on time with full instructions on fitting. Brilliant company to do business with.

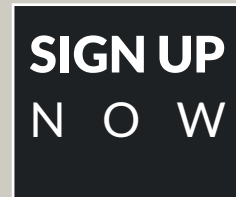

Rachel Unwin

Filter Subscription Plan STAY ON TRACK - SAVE MONEY

We highly recommend subscribing to our convenient filter subscription plan. This not only ensures timely filter replacements but also saves you money. With our subscription, you'll enjoy discounted prices and no delivery charges, making it a cost-effective and hassle-free solution for your filter replacement needs.

Never miss a filter change by subscribing to our plan.

REGISTER YOUR AQUATAP

To ensure you enjoy your Aquatap to its fullest potential, we strongly encourage you to register your warranty.

**5 YEAR
WARRANTY
ON TAP**

**2 YEAR
WARRANTY
ON BOILER**

**1 YEAR
WARRANTY
ON CHILLER**

IMPORTANT!

Warranty registration must be completed within 30 days from the date of purchase, as failing to do so will invalidate your full warranty.

Register Your Product for Warranty

Condition of Warranty: Registering your Aquatap warranty is a fundamental requirement to activate and maintain your warranty coverage. Without this essential step, your warranty will not be valid, leaving your investment vulnerable.

Peace of Mind: By complying with this requirement, you secure your peace of mind. In the rare event that you encounter any issues, your registered warranty will ensure quick and hassle-free support, as per the warranty terms and conditions.

Registering your Aquatap warranty is a crucial condition to protect your investment.

Please visit our website and complete the online form to fulfill this requirement and secure your warranty coverage. Don't miss out on the benefits of our warranty and exceptional customer support.

Great product and good customer service

Good customer service and great product, already thinking how did we live without this. Once ordered installation videos were sent and the product turned up at 8:30 the following day.

This was so easy to install. The hardest part was removing the old tap and installing the new one just because you have to reach up inside.

The actual plumbing was very simple, the video was very clear. In all honesty that was done in 30 mins. The longest part was getting an electrical socket to under the sink.

James Newman

High quality product

High quality product. Very easy installation took only half an hour. Working excellent. I'm really happy and enjoying making my tea and coffee. Just love it. Highly recommend. Excellent service. Next day delivery.

Marzena Trzcinska

Don't just take our word for it...

SEE WHAT OUR CUSTOMERS ARE SAYING ON TRUSTPILOT

This tap is a-maz-ing!

I have now had my tap since December 2022. I have waited giving a review as I want a true reflection on whether it was a good product or a waste of money!

This tap has made a great addition to our kitchen, no need to boil a kettle anymore. The filtered cold water has saved us money as we no longer have to purchase drinking water. It tastes pure and signing up for the discounted replacement filters means I do not have to worry about forgetting when to change the filters.

A worthwhile purchase of excellent quality and value. It is truly a-maz-ing!

Dee

Great product and top Customer Service

Quality product. Great customer service. Efficient delivery. I ordered my 4in1 tap and it arrived the next day. I installed the tap the same day that it arrived (yes it is possible to do in an evening after work). The instructions were clear (both video and written) and had no issues doing so at all. I checked the system over next two days and noted a slow leak in the filter connector. After quick call with Aquataps and sending a video of the leak a replacement filter housing was sent and arrived the next day. I was able to easily swap out the part and have had no issues since. Overall love the tap and the customer service experience from Aquataps was second to none.
